

Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Team Project Documentation

Project	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Document	04. 04. Customer Journey Map
Team Lead	Manikandan
Team Members	Sree Vasam, Ratheesh, Chachin, Mathew

Prepared for ServiceNow Flow Designer project submission

Standard Laptop Request Journey

Stage	User Action	Process	Pain Point	Automation Opportunity
Need	Needs laptop	Request starts	Manual process	Service Catalog
Order	Selects item	RITM created	Minimal	Standard catalog item
Approval	Waits	Approver reviews	May pause	Approval state
Task	No direct action	Task created	Manual creation risk	Flow Designer
Assignment	Waits	Hardware receives	Manual routing	Auto assignment
Configuration	Laptop configured	Hardware executes	Delay if task absent	Standard instruction
Fulfillment	Receives laptop	Request progresses	Waiting	Track task/request

Key Improvement

Automation removes the manual hand-off between approval and Hardware configuration by creating a Catalog Task with the required instruction and assignment.
