Prepared for ServiceNow Flow Designer project submission

Overview

The solution automates the post-approval fulfillment step for a Standard Laptop request. Flow Designer creates a Catalog Task from the Requested Item and routes it to Hardware.

Milestone 1 – Flow

- Flow name: Standard laptop task.
- Application: Global.
- Run as: System user.
- Trigger: Service Catalog.
- Action: Create Catalog Task.
- Request item: Requested Item Record.
- Short description: Laptop need to Configured.
- Description: Laptop need to Configured.
- Assignment group: Hardware.
- Approval: Approved.
- Save and Activate.

Milestone 2 – Flow Assignment

- Open Maintain Items.
- Find Standard Laptop.
- Open Process Engine.
- Remove conflicting/remaining automations as required.
- Add Standard Laptop Task flow.
- Save the catalog item.

Milestone 3 – Validation

- Service Catalog → Hardware → Standard Laptop.
- Order Now.
- Open Request Number.
- Approve from Approvers.
- Open Requested Item.
- Open Catalog Tasks.
- Verify task status, short description and assignment group.

Expected Outcome

An approved Standard Laptop request automatically produces a configuration Catalog Task assigned to Hardware.
